## **CREAT STUDIOS RELEASES MS. GERMINATOR FOR THE PLAYSTATION® NETWORK IN EUROPE**

*Exciting sequel to the delightfully characterized Germinator is releasing today on the PlayStation® Network in Europe*

**CANTON, Mass. (August 14, 2013)** – Creat Studios releases *Ms. Germinator* on both the PlayStation® 3 and Playstation®Vita consoles in Europe. *Ms. Germinator* extends the original series that was heralded by the inaugural super-bubble-popper *Germinator* earlier this year.

*Ms. Germinator* takes domestic cleaning to new extremes! Inflate and pop colonies of colorful germs growing on your stuff while skillfully using the new power-germs to devastating effect. There are literally hundreds of challenging levels in Campaign, Puzzle, Arcade and Duel multiplayer modes all in serious need of disinfection.

Frozen and contagious germs muddy the waters while teleporters and circular reflectors will make your brain hurt. There is even a Challenge Mode where brand new levels will be delivered regularly, free of charge, for your edification.

“With *Ms. Germinator*, we really feel that this innovative series has been taken to the next level” said Jason Benham, VP Product Development, Creat Studios Inc. “With virtually unlimited content contained in the new Challenge Mode, the Playstation®Network’s most stalwart exclusive publisher has renewed its commitment to both PS3 and PS®Vita platforms in a very big way.”

*Ms. Germinator* includes full PlayStation® Trophy support and has been rated “E10+ with Fantasy Violence” by the Entertainment Software Rating Board for these platforms.

*“PlayStation” and “PS” Family logo are registered trademarks of Sony Computer Entertainment Inc. The PlayStation Network Logo is a service mark of Sony Computer Entertainment Inc.*
